

## Collaborations/Partners

Our partners are local agencies who desire to nurture the whole woman; to improve her living, working and spiritual conditions.

We don't believe in re-inventing the wheel, so by partnering with organizations with similar interests, we link our Success Network volunteers to selected projects.

## Who are we?

WIP is a 501 (c)(3) organization serving women

through learning enrichment experiences, awakening passions for spiritual, cultural, educational, and entrepreneurial growth. We provide resources to enable women to advance beyond their social and economic barriers.

## What we do?

We focus on two initiatives to reach our goals:

- Economic Empowerment
- Health and Quality of Life Empowerment

By partnering with local agencies, we are able to reach those goals.

We link women to informational resources, mentoring opportunities, and promote awareness of varied issues through culturally diverse events.

WIP also provides grants for advanced educational opportunities through the Grady-McKnight Fund.

## Who are our volunteers?

### The WIP Success Network

WIP provides busy, talented women volunteers creative opportunities to give back to their communities. These women are part of the WIP Success Network.

We match our Success Network volunteers with opportunities to share their expertise and passion with women who need their help. The demographics of our Success Network volunteers are diverse, including corporate professionals, mothers, community leaders, small business owners, artists and teacher.

These women volunteers share one common theme: **Elevating women to achieve their goals.** Each volunteer agrees to donate at least five hours of her time annually to making a difference in the lives of women.

## Who are our Successes?

### Monica Hopkins

Through the efforts of several Success

Network volunteers and an award from our Grady-McKnight Fund, Monica, an International Studies major at the University of Memphis, was able to take advantage of a semester of study abroad in Japan to enhance her knowledge of the written and spoken Japanese language.

### Norma Serrano Coles

Norma participated in our “Digging Deep” virtual sessions and was aligned with a mentor to make a life transition of owning her

own business. She is now a successful business owner of *Excellence by Design* in Highland, IN.

Our Success Network volunteers trained and provided mentoring to promote Norma’s success.

Norma is now a volunteer for the **Success Network.**
